Summary

An ex-dentist turned backend developer, I have independently acquired skills in Javascript , Node.js, Express.js, NoSQL,SQL databases, and TypeScript, with foundational knowledge in React.js.

After a transformative decision in 2021 to transition from the medical sector to the tech industry , I have taken solid and remarkable steps in a life changing journey which I am very proud of .

I am incredibly passionate about digital automation and constructing solutions that not only enhance people's lives but also make them more convenient.
